

The Woman's Hour

On August 18, 1920, Tennessee became the 36th and final state necessary to ratify the 19th Amendment. After a long fought and hard won battle, states and the federal government were henceforth prohibited from denying citizens the right to vote on the basis of sex.

The Library & Music Hall proudly commemorates the 100th anniversary of women's suffrage in the United States. 2020's centennial is a milestone in the journey begun by brave women long before 1920. Brave women whose work we carry on today for our daughters, for our granddaughters and still very much for ourselves.

The Woman's Hour is a series of special programming taking place throughout the Library & Music Hall, throughout 2020. [See the list](#)....

(Some programs are still taking shape or being brought to us by collaborators. Stay tuned!)
